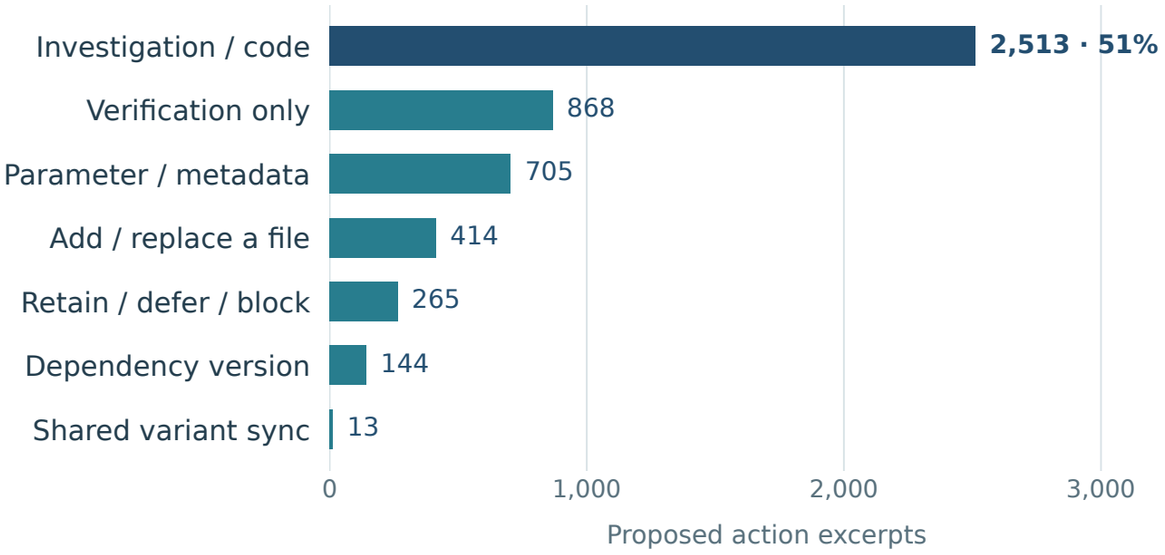
What the proposed actions look like

4,922 automatically proposed action excerpts · all unreviewed



Each proposal still needs evidence and action review.

Readiness for a strict benchmark

4 model fits on 4,117 exploratory rows

Provisional release-date split

168 / 287 entries have no reported date.

All bundling cutoffs await confirmation.

0
reviewed action labels

0
eligible strict cases

Automatic execution disabled

CHECKED LOCAL EXECUTION

1 real file + 4 fixture actions

9 checks passed across the two replays.

Full ADF: approved core builder missing.

VERIFICATION

31 tests passed

Browser: 8 chapters at 3 screen sizes.

Archives: 6 / 6 checksum declarations matched.

ENGINEERING SAVINGS

Not measured

0 matched human timing observations.

Labor and calendar-time benefit unknown.

Counts come from the recorded run. Weak labels are proposals; local checks establish software behavior and file integrity.
